

# TERRATEC T5

Dual DVB-T Stick

- TV-Stick with two DVB-T receivers
- Supports HDTV
- Connection via USB
- Incl. Remote control and two DVB-T antennas

The TERRATEC T5 is a compact TV stick with two receivers for best DVB-T reception for quality-aware users even in fringe areas and when travelling. Simply plug it into a free USB port, and the handy stick transforms laptop and desktop computers into a full-function television with full HDTV support and many additional features. So your computer easily becomes the second television. And also in fringe DVB-T reception areas thanks to the integrated Diversity functionality, which combines the signal from two receivers to create a new, improved signal.

When the DVB-T reception is good this even gives TV reception when travelling! Alternatively, both tuners can be used independently, which allows simultaneous recording and viewing of different stations as well as the convenient Picture-in-Picture feature. Software for Windows allows operation on all household computers, extensive accessories with a remote control and two DVB-T antennas are included in the shipping package.

# TERRATEC T5
