

# TERRATEC CONCERT BT MOBILE BOOST

## Compact Bluetooth loudspeaker system

- Bluetooth 2.1 for wireless music replay
- Control via touch sensitive surface
- Micro SD slot
- AUX (Line In) input for external devices
- Integrated microphone (hands-free equipment)
- Built-in accumulator for up to 4 hours wireless running time

### Compact all-rounder

The CONCERT BT MOBILE BOOST is the complete system for mobile entertainment. On the way it does not only serve as box with powerful sound for the favourite music but can also be used as hands-free equipment. The Smartphone is connected to the loudspeakers via Bluetooth 2.1 and replays the saved music. If a call is incoming the user can answer the call by a simple push on a button on the loudspeaker and talk via the integrated microphone.

### Easy operation, great sound

The other control elements of the CONCERT BT MOBILE BOOST are available to pause the music or to switch over to the next song. Furthermore, it is possible to increase or decrease the volume on the box. The loudspeaker system is equipped with a powerful output of 2 x 2 watts RMS and has a signal-to-noise ratio of less than 95 dB.

### More comprehensive accessory package and stronger accumulator

The 900 mAh lithium polymer accumulator of the loudspeakers guarantees four hours of listening pleasure without additional power supply. If you do not have a Bluetooth compatible audio source you may also couple the devices using the AUX input with the CONCERT BT MOBILE BOOST. The accumulator is charged via USB cable, via an micro SD slot it is possible to create a memory capacity of up to 16 GB. AUX cable, power supply unit, micro USB cable and instructions are included in the scope of delivery.

# TERRATEC CONCERT BT MOBILE BOOST

## Compact Bluetooth loudspeaker system

### Features
