

TERRATEC CONCERT BT MOBILE

Multifunctional Bluetooth loudspeaker

- High quality aluminium housing
- Bluetooth 2.1 for wireless music replay
- AUX (Line In) input for external devices
- Integrated microphone (hands-free equipment)
- Build-in accumulator for playtime up to 10 hours
- Accumulator of the base station charges the loudspeakers

The Bluetooth loudspeakers TERRATEC CONCERT BT MOBILE are delivered in a compact and high quality aluminium housing and are particularly suitable for mobile use. Via Bluetooth 2.1 + EDR it is connected to corresponding Smartphones, Tablets and other audio sources.

For devices which are not equipped with a Bluetooth connection the device is equipped with an AUX input for music transfer. Thanks to the integrated microphone the TERRATEC CONCERT BT MOBILE is also suitable as hands-free equipment for the Smartphone.

The basic station included in the delivery rapidly and easily supplies the speakers with energy if the internal 500 mAh accumulator is empty. Alternatively the 1020 mAh storage battery of the station transmits its energy to Smartphones, Tablets and similar devices via USB and is thus acting as a powerbank.
