

## Video archiving, editing and CD authoring!

Cameo Grabster 200 is the perfect entry point into the digital video world. That's because this external video converter connects your camcorder, DVD player, satellite receiver, video recorder or any other analogue video source to your PC with just the turn of a hand. Right away, you can cut, edit and securely archive your videos on the computer, and even quickly burn them to DVD, SVCD and VCD disks.

Cameo Grabster 200 offers both composite and S-Video inputs and a USB 2.0 port. Guaranteeing time-efficient copying without endless waiting periods! You can record to your hard disk in MPEG1 or MPEG2 and even record a DVD RW „on the fly“, without using large amounts of hard disk space.

Afterwards you can create individual menus or remove annoying commercials directly from the DVD. The video resolution of 720 x 576 pixels assures the highest video quality. Your PC is transformed into a multi-functional "digital video recorder" for DVD, SVCD and VCD!

Become your own movie producer! With Ulead MovieFactory 2 SE, the complementary software for recording and editing, you're set! This lets you conveniently cut and edit your own clips and add individual menus to your video project. Then you can save to disk and author SVCDs and VCDs, or even burn to DVD.

### Technical Details

- PC Interface: USB 2.0
- Video Standard: PAL & NTSC
- Signal Input: Composite (analog) or S-Video
- Capture Rate PAL: Up to 720 x 576 Pixel/25fps
- Capture Rate NTSC: Up to 720 x 480 Pixel/29,9fps
- Frame Size: 160 x 120 to 720 x 576 Pixel
- Software Interface: Windows WDM driver
- Data Format: I420, YUY2, RGB24
- Video Through Function
- Compatible with Windows 2000/XP
- Power 5V, provided by USB port

### System Requirements for AVI or MPEG 1 Recording (VCD):

- Pentium III / AMD Athlon 800MHz
- USB2.0 interface
- Microsoft Win 2000, Win XP
- 128 MB RAM
- Soundcard

### System Requirements for MPEG 2 Recording (DVD):

- Pentium IV 1400MHz / AMD Athlon XP 1800+
- USB2.0 interface
- Microsoft Win 2000, Win XP
- 128 MB RAM
- Soundcard
